

SHEEP BREEDERS ROUND TABLE 2011

The Future is Bright, the Future isLamb!!

BIENNIAL CONFERENCE 4TH-6TH NOVEMBER 2011

At Eastwood Hall, Mansfield Road, Eastwood,
Nottingham, NG16 3SS

At last we have had a sustained period of finished lamb prices, which reflects the quality of the product being sold. However there is always plenty of scope left for all sheep producers to improve the quantity and quality of their lambs. Coming to the Sheep Breeders Round Table will help you do that, at the same time as being an extremely useful networking opportunity and an enjoyable weekend. So what are you waiting for, you don't need a crystal ball to decide if it is worth attending - **being at SBRT is the one bit of the future where you do know what you'll be getting.....**

Speakers at the 2011 conference include :

- Gregor Ingram, Farmers Weekly Sheep Farmer of the Year 2010
- John Vipond, SAC
- Alex Ball, Sheep CRC & Meat and Livestock Australia
- Charlie Morgan, Grassmaster

There are also speakers from Waitrose, Dunbia and Marks & Spencer. Stuart Ashworth from QMS and Kim Matthews from EBLEX will be talking, along with researchers from SAC, IBERS and University of Warwick.

Details are being circulated to a wider audience than previously so it is essential that you **book early to avoid disappointment**. For further details and a booking form please email karen.morris@eblex.ahdb.org.uk or telephone 0247 647 8828.

KTN Bioscience, formerly known as Genesis Faraday, are interested in running a **Genomics for Beginners** course on the 4th November at 9.30am until 1.30pm at Eastwood Hall, which is before the main conference starts. The course will provide an easy-to-follow introduction to Genomics, and is aimed at anyone who needs to learn the basics.

We need to know if you are interested by the 1st September, please email enquires@biosciencesktn.innovateuk.org to book your place. Course numbers are strictly limited, so places are offered on a first come first served basis.
